Twenty years **designing, directing, and building**. I hand-drew a brand to **\$3.8M** in lifetime sales and built the software that runs it, ship production apps in Next.js, and keep a daily practice in AI video and creative direction. Most people pick a lane — I take the whole arc, from concept to craft to code to shipped.

SELECTED WORK

Founder · Takeout Order

2020 — PRESENT

- Founded and scaled a hand-drawn apparel brand to \$3.8M in lifetime sales — designed the identity, drew the full catalog, and ran marketing and DTC.
- Built the internal software that runs fulfillment: Shopify ingest, EasyPost labels, and an order state machine operators run unattended.
- Direct AI-native ad creative — generative video and image alongside live-action shoots (Seedance, Kling, Nano Banana via fal.ai).

Founder · Margenie

2026 — PRESENT

- Designing and building an AI-native ops platform for Shopify brands and its design system — an agent layer with human-in-the-loop approvals, plus a generative-creative pipeline for ad refresh.
- Next.js · React · TypeScript · Prisma · Meta Graph API · Shopify API · Vercel

Founder · Parfade

2026 — PRESENT

- Designed, built, and shipped an iOS app for golfers — round scheduling, side games, real-time chat — live on the App Store.
- Expo · React Native · Next.js API · Drizzle · Neon Postgres · Ably

CREATIVE DIRECTION · AGENCY & IN-HOUSE

Fifteen years directing brand, campaign, and digital work in agencies and in-house teams before founding.
